# I Made This: Color Extractor

Posted At : February 27, 2014 4:52 PM | Posted By : Jon Hartmann

Related Categories: jQuery, Javascript

 Check this out if you're bored or love color porn: **cx.jonhartmann.com**. It runs fully in your client, extracting color palettes from the image using the Canvas. The palette is selected based on color density and an amazing color bucketing system that I'd love to claim as my own.
